

Stay Greener Guest Charter

Join us in creating a more sustainable future

CONSERVE ENERGY

Switch off lights, heating, and electronics when not in use. Your apartment features energy-efficient systems with individual thermostats and triple-glazed windows for natural comfort.

BE WATER WISE

Use the refillable carafes with our building water dispensers instead of bottled water. Reuse towels where possible and turn off taps when brushing teeth.

EMBRACE WEEKLY HOUSEKEEPING

Our weekly service reduces water consumption. Consider skipping housekeeping when not needed – we use eco-friendly products and i-mop technology that reduces environmental impact by over 75%.

RECYCLE THOUGHTFULLY

Use the three-compartment bins in your apartment for waste separation. Consider leaving unopened food items for our foodbank initiative on check-out.

CHOOSE LOW-CARBON TRANSPORT

STAY Camden is car-free. Explore using our complimentary bike storage, public transport, or walking. Our team can recommend cycle hire and nearby electric vehicle charging.

SUPPORT LOCAL

Discover Camden's vibrant independent businesses featured in our neighbourhood guide. [Check out our neighbourhood guides.](#)

DISCOVER GREEN CAMDEN

Canal Walks: Explore the historic canals where our waste is transported by barge, reducing road emissions.

Local Markets: Visit Camden Market and local producers who share our commitment to sustainability.

Camden Highline: Support this exciting project transforming disused railway into a green oasis – ask reception for the latest updates.

JOIN OUR INITIATIVES

Rent a DripDrop umbrella from reception- each rental funds the removal of plastic from nature.

Donate to our foodbank and pet item collection.

Sustainability is best achieved together. Thank you for helping us create a more sustainable future, one STAY at a time.
